

# SHOCKING NEWS FOR DAIRY FARMERS!

Extensive research has proven that stray voltage in and around your dairy shed **DOES NOT** cause mastitis in your herd.

The MPTA warns you to be wary of those who will tell you different then try and sell their "magic" products to eliminate stray voltage and reduce mastitis.

For a free copy of a researched presentation by Dr. Doug Reinemann of USA contact the MPTA on **027 449 7402** or email [info@nzmpa.co.nz](mailto:info@nzmpa.co.nz)
