

NEW.

PUMPING SYSTEMS TECHNICIAN CERTIFICATE

FOR

People currently working as technicians or tradespeople in the water-based pumping systems industry who have done so for 8 years or more.

WHY?

To acknowledge those technicians working within the water-based pumping systems industry who have many years experience but no formal trade training or qualification.

The certification recognises the skills that have been acquired throughout a technician's career and will add credibility and confidence to New Zealand's skilled workforce and populate the industry with recognised, competent tradespeople.

COSTS

NZMPTA Members \$250 + GST

Non Members \$800 + GST

(Includes free membership of NZMPTA for one year valued at up to \$500.00 + GST)

BONUS:
Certification
will be **FREE**
for the first 50
NZMPTA member
applicants

THE PROCESS

Applicants must:

1. Be currently employed in the industry for a minimum of 2 years.
2. Have a minimum of 8 years relevant experience in the industry.
3. Have completed a Pump Selection training course e.g. NZMPTA, Davey or Grundfos online (or equivalent).
4. Present details of work history.
5. Provide a minimum of two work related referees.
6. Satisfactorily complete a skills/knowledge assessment.

Applicants are required to have a broad knowledge of the industry and a prescribed standard of skills and knowledge that will be assessed by an independent assessor before certification is awarded.

"This is reassurance for customers that the people they are dealing with are knowledgeable and accredited in what they are doing."

Matt Nelson,
Workshop
Manager - Pump &
Electrical Services

"There are many people like me who have done a phenomenal amount of work and have incredible knowledge in this area but have nothing on paper to prove it. This certification changes that."

Graeme Evans,
Field Manager
- Paeroa Farm
Services

"These guys are specialists with enormous experience. They are critical to businesses like ours and the broader industry ... and I am delighted they can now get the recognition they deserve."

Darlene Henshaw,
Owner - PASLR
Crucial Services

* The tenure of this pathway is intended to be available for a period of three years, allowing those technicians with only five or more years experience to work towards this certification before 31st March 2027.
